

OFFSET DISC DOUBLE NORMAL DUTY TRAILED 26" OR 28" - SKDN

DISC SPACING 11" - 280MM

CHARACTERISTICS

1. Ideal for the preparation of seed beds, weed control and cutting of stubble after harvesting.
2. The SKDN model consists of one right hand and one left hand offset that can be used as one unit or two separate offsets.
3. The two independent offsets of equal width, are joined at the hitch with spreader bars between the frames.
4. Suitable for uneven terrain and hilly conditions with Independent hydraulic depth control valves on each unit.
5. Unit can be split into two separate offsets for transport.
6. Extendable spreader bars with ball joints, quick couplings and spring loaded locking pins, makes coupling and separation very easy.
7. Very economic and robust option for wider and bigger offsets.
8. Fitted with 26" (660mm) or 28" (710mm) plough discs , notched discs in front and plain discs at the rear, with mud scrapers.
9. Proven and reliable heavy duty maintenance free Erdvark bearing units, 45mm high tensile disc axle with axle locks.
10. Bearing Unit requires no service or lubrication, it is lubricated with a special lubricant at the factory and sealed.
11. 100% Guarantee that no dust and sand can enter bearing-unit under normal working conditions due to floating duo-cone seals.
