

GRADER TRAILED - G41

3.800m 1800kg

CHARACTERISTICS

SPECIFICATIONS

Blade width: 3.8 meter
 Cutting angles: 90, 79, 68, 57, 46 degrees
 Mould-board 590 mm Blade size : 200 mm
 Mass: 1800kg
 Transport length: 4 500mm
 Nominated kw 40 tot 110 Tyres: 7.50-16 Industrial Tyres

GRADING ABILITIES

Erdvark overcomes the toughest grading conditions.

1. The heavy blade case ensures that blade penetration is effective on tough surfaces.
2. The cutting edges of the blade can be mechanically operated from the tractor seat. The controls are easy and the driver does not have to spend hours optimizing the performance of this grader.
3. The grader can be set to incline without wasting time.
4. Cutting edges are easily replaceable.
5. Manufactured in South Africa.

APPLICATIONS

- A. Maintenance of farm roads and the building of new roads.
- B. Make new and maintain fire breaks.
- C. Building and maintenance of contours.
- D. Leveling irrigation fields.
- E. Landing-strip for airplanes.
- F. Grading of irrigation furrows and digging of trenches.

ADDITIONAL FITMENT (LEVEL ATTACHMENT)

To level fields for flood irrigation, an attachment is fitted between the wheels. This ensures that the grader will always stay level. The Two hydraulic cylinders are coupled in parallel with a hand valve which has the advantage that the grader's up and down control is now possible with only one lever and the grader always stays level.

Optional Extra: Side Plates can be added.

Optional Extra: Tandem wheels can be added for more stability.

G41C Grader - Hydraulic Turn Type - 6 hoses to tractor

MODEL NO	MODEL G41	NUMBER OF PIPES TO TRACTOR	MASS kg	WORKING WIDTH m	AVERAGE TRACTOR REQ. kW	PRICE VAT EXCL R
G41A	Standard Grader	4	1 800	3.8	40 - 110	194 525
